* ACTUAL ASSAY: An assay determination on one lot number by CPTC.

** BASED ON ASSAY: An assay determination performed on previous lots by CPTC.

*** HISTORICAL ASSAY: An assay determination performed on previous lots by a third party laboratory.

+ IDENTIFICATION ESTABLISHED: Ingredient is identified by analytical method.

∞ BASED ON INPUT: Where no standard method can be performed, or in a combination product where there may be interference, quantities are verified by Nature's Plus and not investigated by CPTC.

Please see introduction of the Nature's Plus *Independent Laboratory Assay Reference Guide* for information on quality control.
